

Commodore: Clark Cooper

We have been blessed with a very capable board this year and I want to thank them publicly for the great job they have done. Enclosed in this packet you will find their reports for 2006. The well-being of our club is also ensured by many members who hold no club office. You can see this especially well at work parties, where projects are completed under the informal leadership of those that know what they're doing. Yet this same spirit is visible year round, from a member picking up litter on their way to the boat park, to another fixing a dock that has gone askew. I want to thank in particular John Hudson, who chaired the Long Range Planning Committee, and Emmett McCarthy, who continues to chair the SLSC 50th Anniversary Committee. The report of the Long Range Planning Committee can be found online at http://sailsaratoga.org/misc/2006_Long_Range_Plan.pdf.

Respectfully submitted,

Clark Cooper
