

Membership

Allan & Barbara Miller

This season, we welcomed 22 new members and their families to our club. Our new members came in with both fleet-sanctioned boats such as Kestrels, Ensigns, Lasers, and Flying Scots, as well as an assortment of non-fleet boats. We hosted a New Members' Reception in May to which we invited all members of the club. In an effort to respond to the many questions that come up regarding the use of the club, we sent out a list of Frequently-Asked Questions to new members. This addition seemed to take care of many of these questions, especially if a new member joined the club later in the season. We also tried to assure that new members were introduced to people at the club and we really encouraged the new members to get involved with various committees and activities. We know that SLSC's members went out of their way to welcome our new families to the club and certainly ensured a successful and continuing relationship with SLSC.
